### Biography

With more than 13 years experience as a dedicated litigator in the areas of tort, intellectual property, commercial and family matters, Leena as she is popularly known, is skilled in a diverse range of practice areas. Leveraging on her experience, she is also equally able to provide corporate drafting services.

Leena is regularly consulted in high value, urgent and complex litigation and drafting matters. However, she is generally available to *only* a select few clients. This is to ensure quality and efficient service. In high stakes litigation, speed and confidentiality cannot be overated. As such, clients do not deal with any intermediaries.
